

EDUCATION

Academy of Art University
UVA Darden School of Business

TERREYL KIRTON

I have over 25 years of experience in the entertainment technology industry, specializing in roles such as line producer, technical producer, and designer. I've contributed to significant projects, including designing MLB's headquarters, directing music specials for FOX, and managing multi-million-dollar tournaments for NBA TV.

I'm skilled in creating interactive, experiential exhibitions, handling everything from design to deployment and maintenance of systems. My clients include global corporations and top-tier institutions, and I've worked on events worldwide, including Iceland and France, to the Fort Worth stockyards

With a proven track record of delivering high-impact live events under pressure, I excel in leading teams, managing large-scale productions, and ensuring client satisfaction. I've handled projects with budgets up to \$10 million and in-person audiences of over 14,000. I'm seeking new opportunities to apply my expertise in managing international and domestic projects.
